

No Snow, No Problem

Here's something for the snow junkie who's been

transferred to Florida: The new Crosskate 616

Backcountry Skates work like cross-country skis, but have mountain bike-style tires to rumble over rough, snowless terrain. To turn, just lean toward where you want to go.

They won't roll backwards, so it's easy to climb hills.

Check www.crosskate.com or call 877-276-7758.
